

LAKSHIT KHANDELWAL

8764075083 | lakshithandelwal91@gmail.com | Alwar, Rajasthan

Experience

Synoriq R&D Private Limited | Jaipur, Rajasthan

Software Engineer | 07/2022 - Present

- Developed and enhanced the **Finova Plus Mobile App** using **Angular, Node.js, AWS SDK, Microsoft Clarity, and Serverless**.
- Integrated the app with **Microsoft Clarity** to track and analyze user behavior, and **Node.js** to build a robust backend infrastructure.
- Utilized **AWS SDK** to integrate the app with backend systems and **AWS S3** to store and manage data securely.
- Integrated various APIs like **CIBIL/CRIF, E-Sign/E-Stamp, and more**, facilitating seamless data exchange and functionality.
- Configured project setups with **Git tools** and platforms like **GitLab**, while also employing **NPM** to manage and install the necessary packages for the framework and project.
- Working On **Suit CRM** using PHP and backend on Node Js, CRM stands for "**Customer Relationship Management**" and is a software system that helps business owners easily track data.
- Effectively managed the development of Suit CRM, a PHP-based CRM system with a Node.js backend, resulting in a **30% increase in sales** lead conversion rates.
- **Working and executing multiple mobile application projects simultaneously** in developing and enhancing apps using MongoDB, Minaio, and SQL. Good in data management, API integration, and user experience optimization.
- Notable projects include **Finova Plus Mobile App, Digizen Mobile App for JM Financial, and Choice Mobile App**. Significantly improved app stability by up to **50%** across multiple projects.
- Demonstrated strong project understanding skills by effectively coordinating with a team of **5-6 engineers** to evaluate and improve software interfaces, as well as **collaborating with clients** to define solution requirements and expectations.
